If your child talks to you about bullying:

1. **Listen** calmly and get the full story.
2. **Reassure** your child that they are not to blame.
3. **Ask** your child what they want to do about it and how you can help.
4. **Visit** www.bullyingnoway.gov.au to find some strategies.
5. **Contact** the school.
6. **Check in** regularly with your child.

What is Bullying?

The national definition of bullying for Australian schools says:

Bullying is an ongoing misuse of power in relationships through repeated verbal, physical and/or social behaviour that causes physical and/or psychological harm. It can involve an individual or a group misusing their power over one or more persons. Bullying can happen in person or online, and it can be obvious (overt) or hidden (covert).

Bullying of any form or for any reason can have long-term effects on those involved, including bystanders.

Single incidents and conflict or fights between equals, whether in person or online, are not defined as bullying.

Bullying of any description is **NOT** accepted here at Bundarra Primary School.

Getting Along

Friendship

Term 1 is a great time to build new friendships and re-connect with friends after the summer holidays. Friendships are an important part of our school life, they are vital to our social development. Teaching us empathy, giving us conflict resolution skills and building our confidence.

The ingredients are:

- A jar of kindness
- A spoonful of listening
- A can of honesty
- A tube of trust
- A carton of patience
- 1kg of forgiveness
- A box of encouragement
- A pot of respect
- A bag of loyalty
- And a bottle of fun

Talk to everyone at home about why it is important to have friends. Ask the grown-ups to describe a time they have been a good friend, or when someone has been a good friend to them. Why was this important at the time?

CONGRATULATIONS

Well done to Mrs Down and all the students who contributed to our recycled garden art entry in the Wood, Wine & Roses Festival. It was awarded 3rd prize! To celebrate students enjoyed a shared lunch of hot chips and orange juice.

Coronavirus disease 2019 (COVID-19)

Factsheet for school students and children

Last updated 13 February 2020

An outbreak of coronavirus disease (COVID-2019) was detected in Wuhan, China in late December 2019. Cases have been reported predominantly in mainland China, as well as other countries, including confirmed cases in Victoria, Australia.

What is this virus?

Coronaviruses can make humans and animals sick. Some coronaviruses can cause illness similar to the common cold and others can cause more serious diseases, including Severe Acute Respiratory Syndrome (SARS) and Middle East Respiratory Syndrome (MERS).

The virus seen in mainland China has not been detected before this outbreak. Most people infected live in, or travelled to, mainland China. There have been cases of (COVID-2019) reported in other countries. It is likely that the virus originally came from an animal, and there is now evidence that it can spread from person-to-person.

What are the symptoms?

Symptoms can include fever, cough, sore throat, or shortness of breath. Symptoms can take up to 14 days to develop.

What if my child is well, and is returning to school or early childhood education services after being in mainland China or other countries with cases in the past 14 days?

The following children and students should self-isolate and are advised to stay at home and avoid public settings including attendance at schools and early childhood education services:

- People who were in Hubei Province until 14 days after they were last in Hubei Province;
- People who were in mainland China on or after 1 February 2020 until 14 days after they were last in mainland China;
- Close contacts of confirmed cases until 14 days after last close contact with the confirmed case

Children and students who are well and have travelled to any other areas where there have been reported cases, are NOT recommended to be excluded from schools and early childhood education services unless the following applies:

- The person is a confirmed case of coronavirus disease
- The person is a close contact with a confirmed case of coronavirus disease in the past 14 days.

What if my child feels sick now or within 14 days of being in mainland China?

- Seek medical attention but first place a mask on your child if you have one and call the doctor or hospital before you attend. Tell them your child has been in mainland China.
- When you get to the hospital or doctor's clinic, tell them where your child has travelled in mainland China. Ensure a mask is placed on your child before or as soon as you arrive at the medical facility.

If your child has severe symptoms, such as shortness of breath:

- Call 000 and request an ambulance, and
- Inform the paramedics where your child has been in China.

How can I help prevent the spread of COVID-2019?

Practising good hand and sneeze/cough hygiene is the best defence. The most important actions are:

- Wash your hands often with soap and water
- Cough and sneeze into your elbow
